

AMENDMENTS TO THE CLAIMS:

Please change the heading at page 23, line 1, from "**Patent claims**" to
WHAT IS CLAIMED IS:

The following listing of claims will replace all prior versions of claims in the application.

Claims 1-10 (canceled)

-- Claim 11 (new): A suspension concentrate comprising

- (a) at least one active compound that is solid at room temperature selected from the group consisting of azoles and strobilurins,
- (b) at least one penetration enhancer selected from the group consisting of alkanolethoxylates,
- (c) at least one dispersant selected from the group consisting of (i) polymers of methyl 2-methyl-2-propenoate and α -(2-methyl-1-oxo-2-propenyl)- ω -methoxy-poly(oxy-1,2-ethanediyl), (ii) tristyrylphenoethoxylates, and (iii) propylene oxide/ethylene oxide block copolymers having molecular weights between 8000 and 10,000,
- (d) water, and
- (e) optionally, one or more additives.

Claim 12 (new): A suspension concentrate according to Claim 11 wherein component (a) is one or more triazoles selected from the group consisting of azaconazole, bitertanol, bromuconazole, cyproconazole, diclobutrazole, difenoconazole, diniconazole, epoxiconazole, etaconazole, fenbuconazole, fluquinconazole, flusilazole, flutriafol, hexaconazole, imibenconazole, ipconazole, metconazole, myclobutanil, paclebutrazol, penconazole, propiconazole, prothioconazole, simeconazole, tebuconazole, tetraconazole, triadimefon, triadimenol, and triticonazole and/or one or more imidazoles selected from the group consisting of imazalil, oxpoconazole fumarate, peforazoate, prochloraz, and triflumizole.

- 3 -

Claim 13 (new): A suspension concentrate according to Claim 11 wherein component (a) is one or more strobilurins selected from the group consisting of azoxystrobin, dimoxystrobin, famoxadone, fenamidone, fluoxastrobin, kresoxim-methyl, metaminostrobin, picoxystrobin, pyraclostrobin, and trifloxystrobin.

Claim 14 (new): A suspension concentrate according to Claim 11 wherein component (a) is tebuconazole.

Claim 15 (new): A suspension concentrate according to Claim 11 wherein component (a) comprises tebuconazole and trifloxystrobin.

Claim 16 (new): A suspension concentrate according to Claim 11 wherein component (a) comprises prothioconazole and fluoxastrobin.

Claim 17 (new): A suspension concentrate according to Claim 11 wherein component (a) is trifloxystrobin.

Claim 18 (new): A suspension concentrate according to Claim 11 wherein component (c) comprises two dispersants.

Claim 19 (new): A process for preparing suspension concentrates according to Claim 11 comprising

- (1) mixing penetration enhancers (b), dispersants (c), water, and, optionally, one or more additives (e),
- (2) adding at least one active compound (a) to form a suspension and comminuting the suspension by grinding, and
- (3) adding water and, optionally, one or more additives.

Claim 20 (new): A method of applying agrochemically active compounds to plants and/or their habitat comprising applying a suspension concentrate according to Claim 11 to the plants and/or their habitat. —
